

Announcement to the APAI members:

We are happy to announce the return of Mike Kvach as our Executive Vice President at the Asphalt Pavement Association of Iowa. Mike's passion toward asphalt and the asphalt industry, along with his knowledge of the members, both locally and nationally, will help him make an immediate impact on the APAI. Mike started at the APAI in 2000 when both association staff positions were vacant. History has a way of repeating itself as we find ourselves with the same situation. During his previous tenure (2000-2008), Mike created the Greater Iowa Asphalt Conference (GIAC), pressed for IDOT Perpetual Pavement projects, created the first APAI Environmental awards, as well as many other accomplishments. After the APAI, Mike moved on to work with the National Asphalt Pavement Association (NAPA), the Asphalt Pavement Alliance (APA), and with Astec Industries in a Sr. Vice President of Sales and Marketing role. Mike, and his wife Kristine, moved back to Iowa in 2020 and currently reside in Cedar Rapids.
